

Trainings

SEAVISION

SEA Vision offers several courses about SEA Vision products such as:

1. Super User Training about serialization logic
2. Super User Training about aggregation logic
3. Super User Training on IT Infrastructure
4. Training on vision systems
5. Practical on-site Training on the packaging line
6. Online Training

The Super User training workshops are addressed to site supervisor/personnel who are responsible for management of SEA Vision equipment on the line; the Training on vision system' functionalities instead, is addressed to line operators and/or supervisors. Moreover, SEA Vision offers the possibility to organize practical on-site trainings, for operators/maintainers, as well as many other online trainings using Microsoft Teams platform.

During the course, trainees will:

- UNDERSTAND VISION SYSTEMS, T&T AND ARCHITECTURE FEATURES AND FUNCTIONALITIES
- GAIN PRACTICAL EXPERIENCE
- LEARN HOW TO SPEED UP ISSUES RESOLUTION BY IMPROVING TECHNICAL COMMUNICATIONS SKILLS
- LEARN HOW TO MANAGE AND MAINTAIN SYSTEMS TO OPTIMIZE THEIR LIFE CYCLE
- OBTAIN THE TRAINING PARTICIPATION CERTIFICATE

Take-Home materials

Presentations, class lectures, live demonstrations, practical examples and in class-training exercises are provided. Each trainee receives a flash drive with class materials and training manuals.

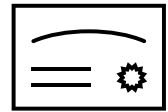

Prerequisites

In order to be able to attend this course you must have attended the PoDA Super User Training.

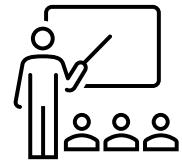

Certificates

At the end of the course the trainee will receive a training certificate.

Training rooms

SEA Vision provides a dedicated classroom equipped with computers at participants' disposal. Moreover SEA Vision is provided with a showroom equipped with packaging machines for practical sessions and exercises.

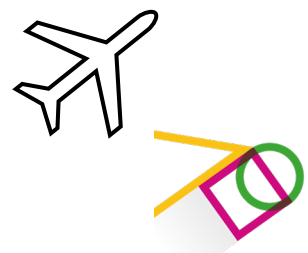

Further information

For safety reason all trainees have to wear long trousers and closed shoes because they have to work on machines on real line.

At least one week before training starts, please communicate to centralino@seavision-group.com: participants' names, flight details and arrival times.
